Buenos Aires Meet May Point Path To Peace of the World

Hull at Montevideo Broadcasts Aims of Nations Economic Basis Will Show the World What Neighboring, Friendly Nations Can Do

By MARTIN BERUTI
United Press Staff Correspondent
Montevideo, Uruguay, Nov. 24.—The inter-American peace conference in Buenos Aires will achieve a new step toward peace based on sound economic understanding. Secretary of State Cordell Hull, chairman of the United States delegation, predicted today in an international broadcast.

Hull was arrived aboard the Munster after American Legion en route to the Argentine capital, said the forthcoming parley "undoubtedly is an opportunity to show the world what neighboring, friendly nations are able to achieve animated by a spirit of co-operation and good will and meeting in conference as equals."

The conference, he hoped, would establish a base for international peace and economic well-being as a guide for a world so in need of clear policies.

The broadcast was made after the secretary of state and Mrs. Hull, Sumner Welles, assistant secretary of state, and Foreign Minister Jose Espalater and Senora De Espalater were guests at luncheon of President Gabriel Terra and his wife. Hull regarded his reception not that of a distinguished guest but rather as a member of the family.

The American Legion docked at 10 a. m. and Foreign Minister Espalater immediately went aboard.

Weather Is Acting Freakish

Dust Storms In the Middle West, and Snow In East
Fog Adds Its Perils
Fog and Snow Force Down Big Airliner In Marsh Near Newark, N. J.

Dust storms swept the middle west and snowstorms swirled through the east and northwest Tuesday, presenting one of the most curious weather maps of the year. Fog added to the hazards of air transport.

Strong winds howled over the plains area, blowing up dust which all but obliterated the sun. Snow fell in the Dakotas and Minnesota.

In Iowa and Nebraska the wind and dust reduced visibility to less than a mile in 15 minutes. The Department of Commerce at Des Moines, Ia., contemplated grounding planes.

The dust storms were blamed on lack of moisture for 17 days, with early autumn rainfall subnormal.

The snow area moved toward Wisconsin, Illinois, Michigan and northern Indiana. Temperatures in the lower twenties were expected.

Four Illinois deaths were attributed to icy roads and poor visibility.

Snow and fog in and around New York forced down a United Airlines plane with four passengers in a soft marsh 1,500 feet north of the Newark, N. J. airport. The plane was damaged slightly.

Central and southern New England were swept by the season's first snowstorm. Roads were slippery and visibility was low. Fair and colder weather was predicted for Thanksgiving Day.

Storm warnings were displayed on Lakes Michigan, Huron, Superior, Erie and Ontario.

Colder weather was forecast for Wednesday in all middle west states.

Snow in the New York metropolitan area turned to slush and warmer weather was predicted.

Sam Ives Is Nearly Drowned

Young Man Has Close Call In Crash On Peartree Road
Was Pinned In Car
Believed Stunned When Car Went In Ditch; Was Saved by Timely Aid

Sam Ives, 21-year-old son of Mr. and Mrs. Milton Ives of Halls Creek road, nearly met with death from drowning yesterday afternoon when the Ford automobile he was driving overturned into a ditch on Peartree road.

Young Ives was unconscious when rushed to Albemarle hospital shortly after 4 o'clock yesterday afternoon, and at a late hour last night had partially regained consciousness. He is expected to recover.

According to witnesses who were close at hand when the accident occurred, the boy lost control of the car, which careened off the road and almost turned turtle, coming to rest with part of a side and part of the top in a large ditch in front of Miles Sanders' home about three miles from town.

Eddie Albertson, who was not far behind Ives' car in a truck, was the first to reach the car. Albertson said that when he reached the car he saw the boy's face partially submerged in water, which had poured from the ditch into the car through an open window, and saw air bubbles coming from the window of the car. He pulled the boy's head out of the water, and then with the assistance of Edwin Ayldett, Sr., and a Negro, who had reached the car a few seconds behind him, he got the boy out of the car, put him in his truck and rushed him to Albemarle hospital.

First aid was rendered at the hospital, where it was found that the boy had swallowed quite a bit of water and had a broken nose and abrasions on his face.

It is thought that he was knocked out by his head striking the windshield or some other part of the car's interior when it overturned, and he probably would have drowned in a few minutes had help not arrived when it did.

This Is "Entry Week" In The Independent's Campaign—Now Is The Time To Enter

Subscription Drive Gives Opening To Ambitious People

WANTED — Energetic men and women and ambitious young folks for limited engagement, requiring spare time only, offering guaranteed weekly compensation; and paying over \$100 per week. Apply in person at The Daily Independent office, Virginia Dare Arcade.

Suppose such an advertisement as the above should appear in the classified columns of today's paper! Wouldn't there be a stream of people—energetic people—pouring into this office for the work?

Yet, that is exactly what The Daily Independent is offering in their big circulation drive, which is just starting. And frankly,

What is your time worth? What will it bring you if you do not participate in this campaign? We are offering you an almost unbelievable extent. Just think for a moment. How long would it take you to save at your present occupation, or your husband's—to set aside an amount equal to either of the top awards? Many people require months—yes, even years—some never do. Yet, here is an opportunity to secure same within the next few weeks, and at the same time you are absolutely GUARANTEED compensation for your work.

ly there are plenty of "energetic" people in this community who could put this proposition over, if they would only get down "off the fence" and decide to "go."

Competitive Plan
This is not a "beauty" nor "popularity" contest, but a strictly legitimate competitive proposition for wide awake energetic men and women, boys and girls, one in which ambitious people backed by a determination to win, are the only requisites for success. As in all political, social or otherwise, the most aggressive

Chinese Troops Report Victory Over Invaders

Peiping, Wednesday, Nov. 25.—(U.P.)—Chinese nationalist forces seized Pailingmao after a furious hand-to-hand battle with General Wang Ying's Mongol invaders, it was announced officially here today.

The border raiders left 300 dead and great quantities of ammunition.

The government troops, claiming that the Mongols have the backing of Japan, reported the capture of 600 prisoners in the storming of the town, located 150 miles northwest of Kweisui, capital of Suiyuan province.

The disorganized Mongols set fire to many buildings before retreating northward.

Germans And Japanese In An Agreement

General Terms of Pact for Mutual Support Are Now Revealed

London, Nov. 23.—(U.P.)—A full outline of the projected German-Japanese agreement received by diplomats tonight reveals that it provides for a political-military alliance.

The two countries would exchange fully diplomatic and military information and assure each other of benevolent neutrality in case of war with a third party.

The draft of the several conventions may be altered now that their existence has been revealed. It was said. But in their present form, diplomats said, the four protocols, of which the first three are not to be published, provide:

1. The arrangement shall be for five years duration.
2. For exchange of information on foreign affairs and for mutual consideration of all effective measures to protect their common interests. Each party would agree to refrain from concluding any information agreement without previously consulting the other. This part of the agreement also would provide an extremely significant stipulation binding each power to abstain from measures which might act to the disadvantage of the other in the event of war with a third power.
3. A separate military protocol providing for mutual technical assistance in all military affairs. Experts state that in practice this means that Germany will supply aid to Japan in the fields of aviation, chemical warfare and production of arms.
4. A further document—publication of which is believed to be imminent—proclaiming the organization of a "common front."

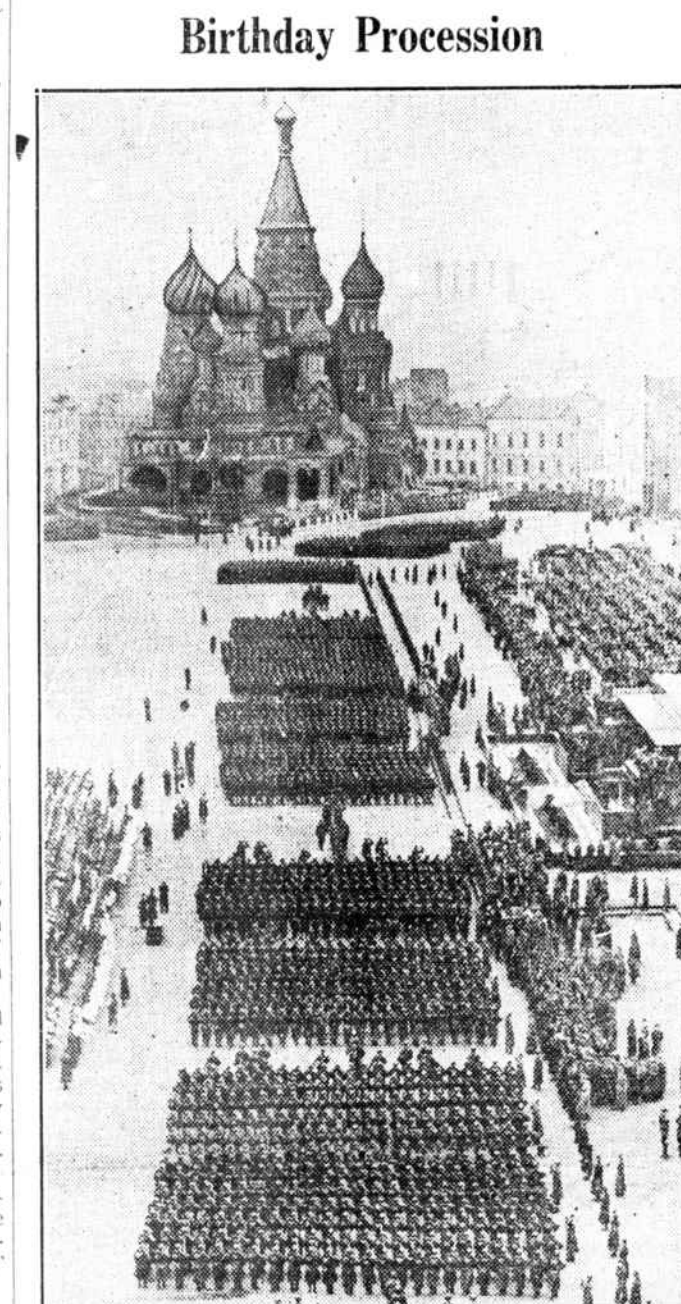

Record-Breaking Sale of Steel Traps Here This Season

"If I were a mink or a muskrat I would be afraid to venture out of my lair anywhere within 25 miles of Elizabeth City," remarked Louis Chappell, manager of the D. M. Jones company, pioneer hardware dealers of this city.

"We have had the greatest run on steel traps this season in the history of our store," said Mr. Chappell, "and other hardware dealers tell me that this also applies to them."

With No. 1 mink pelts selling at \$10 each and common muskrat pelts at 90 cents to \$1.20 each, thousands of Eastern North Carolinians are trapping this season. One youthful trapper came to town the other day with seven mink skins, for which he received \$70. Another received \$45 for five mink pelts.

Great Britain To Send Ten Fighting Ships Into Spanish Waters

RANK after rank, company after company, soldiers of the Russian Red army, largest in the world, march through Moscow on the 19th anniversary of the Soviet regime. At right is the tomb of Lenin from which Stalin and other officials reviewed the parade, with the famed Kremlin in the background. "War clouds thicken," warned President Kalinin.

Russia Is Considering a Similar Move

London, Nov. 24.—(U.P.)—The British admiralty said tonight that the cruiser Galatea, accompanied by nine destroyers, was due to leave the Malta naval base Thursday for Spanish waters.

Officials said the submarine tender Cyclops was scheduled to leave the base tonight, also for Spain.

The admiralty described these ship movements as "routine" but other authorities said they were designed to make effective Foreign Secretary Anthony Eden's promise to protect British merchantmen from interference by Spanish warships.

The Galatea will replace the cruiser Arethusa, presently at Palma, and the destroyers will replace nine ships of the same type now in Spanish waters. The Cyclops replaces the depot ship Woolwich now at Alicante.

Announcement of the ship movements followed by only a few hours a polite warning from Eden to General Francisco Franco, rebel commander in Spain, that British merchant vessels must not be molested.

Meanwhile, Britain received from Franco what it considered an unsatisfactory reply to its re-

Have A Peace Plan In Labor Federation

Four-Point Program to Go Before Convention Tomorrow

Tampa, Fla., Nov. 24.—(U.P.)—A new plan which would lift the suspension order against John L. Lewis and his "rebel" C. I. O. colleagues and permit them to operate within the strife-torn American Federation of Labor was brought forward tonight by responsible peace-makers.

The proposal, said to have been considered seriously by federation leaders, came 24 hours after the C. I. O. unions had been suspended indefinitely by the federation's 56th annual convention here.

1. Lifting of the suspension order against the insurgents. The federation executive council, which suspended the group, has power to revoke that suspension.
2. Establishment of a new department in the American Federation of Labor under which the various industrial unionists would be grouped.
3. Abandonment of the C. I. O.
4. A united assault by the federation and the Lewis group to organize the mass production industries.

The proposal, it was learned, will be placed before Lewis tomorrow. The dynamic, square-jawed

Biggest News Beat Of The Year Scored By This Newspaper

Keckhefer Container Corporation's Choice of Plymouth As the Site For Its \$5,000,000 Plant Unit Escaped Notice of Other Papers

One of the biggest news beats of the year was made by The Daily Independent yesterday in its first news of the Keckhefer Container Corporation's choice of Plymouth as a site for a great wood pulp mill, the cost of which it is said will be \$5,000,000.

How The Daily Independent came to scoop even the Norfolk newspapers on this biggest industrial news item effecting its region, is due of course to the wealth of friendships that this newspaper has built up in its nearly 30 years of service to its city and section. The editors of The Daily Independent know their region and the factors dominating it as other newspaper men don't—and never will. It should be of interest to readers of this newspaper to know that the Keckhefer deal effecting Plymouth was closed in Norfolk under the noses of the two Norfolk newspapers that work this field.

The worth of an important unit of the Keckhefer Corporation to this region is inestimable. It will give employment to much labor and provide a money market for millions of feet of timber that is not usable by lumber mills. But its greater value to the region will be in arousing timber owners to a consciousness of the value of timber as a money crop and the starting of measures of conservation to insure a permanent timber crop. The saw mill is a ruthless waster, dependent on the insistent seamen's strike.

Concert Ticket Sale Is Likely To End Tonite

Goal of 300 Is Expected To Be Surpassed With Ease

Spandid results in the ticket sale for the Elizabeth City Co-operative Concert association, which is scheduled to end tonight, were announced last night by M. Mabel K. Embree, representative of the Columbia Broadcasting System's Artists' Bureau, which is sponsoring co-operative concert associations in several states.

According to Mrs. Embree, 216 tickets had been sold in Elizabeth City alone up till last night, with neighboring towns yet to be heard from. The goal of 300 tickets was 300 ticket sales, and Mrs. Embree stated last night that she believes that many tickets will be sold in Elizabeth City alone and that another 100 or so may

Mrs. Spencer, Jr., Threatens To Indict Husband's Parents

Says Inhuman Treatment Must Be Stopped and Will Fight for Her Spouse; Charges Beating and Imprisonment In the Home

That she may today enter suit against Mr. and Mrs. J. C. Spencer, Sr., for alienation of the affections of her husband, Joseph Carroll Spencer, Jr., or have them indicted for cruelty, or both, was the threat voiced last night by Mrs. Carroll Spencer in an exclusive interview granted this newspaper.

"I have conferred with an attorney," said the young bride, "and I know my rights in this matter. And if Carroll's parents do not quit bullying him and mistreating him today I will have to seek legal protection."

According to Mrs. Spencer, Carroll has been locked in his bedroom since Sunday night, has been given practically no food and has been beat and abused unmercifully. According to her statements, she and Carroll were together Sunday night in an apartment they had rented on Martin Street when Carroll's father and uncle went there and dragged Carroll away by force and have confined him and mistreated him since that time.

The object of this treatment, according to Mrs. Spencer, is to force Carroll into signing certain statements which will make it easier for his parents to have the marriage annulled.

"Carroll and I love each other, and we are going to stick it out as long as we can, even to the point of turning against our own

A Billboard That Misinforms

TO DIVERT northbound tourist traffic from U. S. Highway No. 17, the Ocean Highway route, Suffolk, Va., and James River bridge interests have erected a huge billboard on U. S. 17 between Edenton and Chowan River bridge, which is misleading and unfair in the opinion of Norfolk and Elizabeth City hotel men.

A picture of the offending billboard is reproduced herewith. It seeks to divert traffic to Route 32 from Edenton via Suffolk, by representing that a saving of 30 miles is effected between Edenton and Williamsburg, Jamestown, Yorktown and New York.

The billboard is misleading and unfair as to New York, because the tourist can save at best only four miles between Edenton and New York by turning up Elizabeth City, Norfolk and their historic environs.

Francis E. Turin, manager of the Norfolk-Portsmouth Advertising Board, and Dan Miles, manager of Norfolk's Monticello hotel, were in Elizabeth City yesterday in conference with Ray S. Jones, manager of the Virginia Dare hotel, to take steps to combat the unfair tactics of the Suffolkians and the James River bridge boosters. The trio went to Edenton to see the offending billboard for themselves and do something about it.
